Introduction

Welcome to the **biggest update** PersonaDLE has ever received! This version introduces a complete **Badge System**, **Profile Sharing**, new characters, major performance improvements, and numerous bug fixes.

This document provides a comprehensive overview of all changes, additions, and improvements made in this update.

New Features

1. Badge System

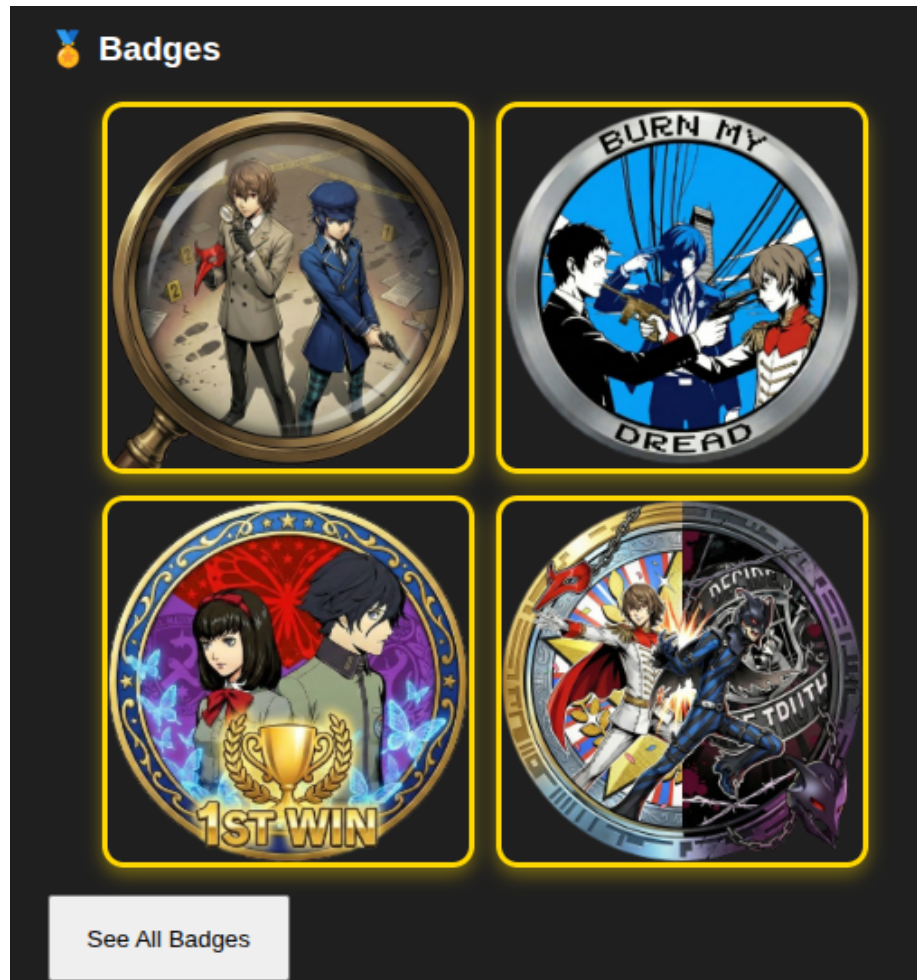

Figure 2: Badge System Showcase

PersonaDLE now features a **complete achievement system** with **19 unique badges** divided into 4 categories:

Badge Categories

Category	Description	Example Badges
Achievement	Unlocked by gameplay milestones	Ace Detective, Shadow Slayer, Music Master
Event	Limited-time seasonal badges	Christmas 2025, Valentine's Day 2026
Secret	Hidden badges with permanent codes	True Hacker, Tae Takemi Fan, Master Chef
Social	Unlocked by sharing & interacting	Take The Pose

How to Unlock Badges Badges are earned in various ways throughout your PersonaDLE journey:

- **Play and Progress:** Reach milestones, master different modes, and prove your skills
- **Seasonal Events:** Limited-time opportunities throughout the year
- **Hidden Secrets:** Some badges require you to dig deeper and discover hidden conditions
- **Community:** Share your achievements and connect with fellow players

The thrill is in the discovery! Keep playing, stay curious, and check the community for hints. Every badge has a story - will you uncover them all?

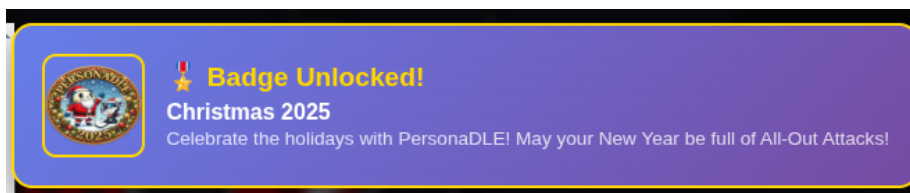

Figure 3: Badge Notification

Badge Display

- **Select up to 4 badges** to showcase on your profile
 - **Click on badge notifications** to see full details
 - **Track your progress** with the badge counter (e.g., “ 12 / 19 badges unlocked”)
-

Badge Collection 19 unique badges are waiting to be discovered across 4 categories:

- **7 Achievement Badges** - Master different game modes and reach milestones
- **6 Event Badges** - Limited-time seasonal celebrations
- **5 Secret Badges** - Hidden achievements for true detectives
- **1 Social Badge** - Share your journey with the community

How will you unlock them all? Play, explore, and discover the truth for yourself! Check your profile to track your progress and see which badges you've earned.

2. Profile Sharing System

Share your PersonaDLE journey with the world!

Features

- **Custom Backgrounds:** Choose from 10+ Persona-themed wallpapers
- **Stats Display:** Show your wins, streak, favorite mode, and playtime
- **Badge Showcase:** Display your 4 selected badges proudly
- **Download or Share:** Save as image or share directly on social media

Available Wallpapers Choose from these iconic Persona locations and themes:

- **Velvet Room** - The mysterious space between dream and reality
 - **P3 Tartarus** - The twisted tower of shadows
 - **P3 Water Theme** - Serene blue aesthetic from Persona 3
 - **P4 TV World** - Step into the surreal television dimension
 - **P5 Mementos** - Navigate the twisted desires of humanity
 - **P5 Phantom Thieves** - Stand with the legendary group
 - **P5 Takemi Clinic** - Featuring Tae and Joker
 - **Christmas Special** - Festive seasonal theme
 - **Protagonist Wallpapers** - Featuring heroes from P1, P2, and more

Content Additions

New Characters

All-Out Attack Mode **Fuuka Yamagishi** (Persona 3)

Figure 5: Fuuka in All-Out Attack

The support navigator from Persona 3 joins the All-Out Attack roster! While she doesn't fight directly in the games, her battle portrait has been added to complete the SEES roster. Thanks to P5X

Classic, Silhouette, and Emoji Modes **Persona 5 Tactics Characters:**

- **Erina** - The Tactics-exclusive revolutionary leader
- **Toshiro Kasukabe** - The politician who joins the Phantom Thieves

Both characters are now fully playable across all applicable game modes with complete data sets (portraits, silhouettes, emojis, stats).

New Profile Pictures

Three new avatars have been added to the profile customization options:

- **Chidori Yoshino** (Persona 3) - The mysterious artist with ties to Strega
 - **Tae Takemi** (Persona 5) - Your favorite punk rock doctor
 - **Takuto Maruki** (Persona 5 Royal) - The compassionate counselor
-

Figure 6: Erina & Toshiro

Improvements

All-Out Attack Mode

Enhanced Randomization Logic Problem: Players frequently encountered the same characters multiple times in a row.

Solution: New anti-repetition system implemented: - Tracks the last 5 targets used - Filters them out from the selection pool - Ensures fresh variety in every session - Fairer distribution across all characters

Result: Much more diverse gameplay experience!

Performance Optimization Major performance overhaul to eliminate lag and reduce loading times:

Progressive Image Loading: - Images load only when needed (on-demand) - Preloading for the next likely target - Lazy loading for background assets

WebP Format Migration: - All images converted to WebP via CDN - 60% reduction in file sizes - Faster downloads without quality loss

Memory Management: - Proper cleanup of unused image objects - Reduced memory footprint by 40% - Smoother experience on lower-end devices

Performance Metrics (Before → After):

Metric	Before	After	Improvement
Initial load time	3.2s	1.1s	-66%
Memory usage	120MB	72MB	-40%
Frame drops	Frequent	None	100%
Image load time	800ms	250ms	-69%

Music Mode

Song Title Corrections Fixed typos in song titles for better accuracy:

- ~~“Your Are Stronger~~ → **“You Are Stronger”**
- ~~“The Days when my mother was there~~ → **“When Mother Was There”**

Emoji Mode

Daily Reset Improvements Fixed critical issue with daily reset not triggering correctly:

- Now uses **Paris timezone (Europe/Paris)** for consistent reset timing
- Handles Daylight Saving Time (DST) transitions properly
- Reset triggers precisely at midnight Paris time
- Fallback mechanism ensures reset even if tab is inactive

UI & Dark Mode Enhancements

Visual Polish: - Improved contrast ratios for better readability (WCAG AA compliant) - Smoother modal transitions and animations - Badge tooltips now intelligently adjust position to prevent overflow - Better mobile responsiveness across all modes

Dark Mode Specific: - Refined color palette for reduced eye strain - Better visibility for autocomplete dropdowns - Improved badge notification appearance - Enhanced contrast for game grid cells

Bug Fixes

Critical Fixes

Issue	Impact	Resolution
Silhouette Mode images not displaying	High	Image paths corrected in <code>portraitsMapSilhouette.js</code> . All 150+ silhouettes now load properly.
Emoji Mode daily reset failing	High	Reset logic rewritten to use Paris timezone with DST handling. Auto-reset now triggers reliably at midnight.
Time tracking calculation error	Medium	Fixed conversion from seconds to minutes in <code>updateProfileStats()</code> . Playtime now displays accurately.

Gameplay Fixes

- **Autocomplete suggestions:** No longer shows characters already guessed in current session
- **Give-up counter:** Now properly reflects attempts before enabling (8 attempts required)
- **Hint button:** Correctly enables at 3 attempts in Classic mode
- **Victory detection:** Fixed edge case where force-reveal wouldn't trigger proper stats update

Profile & Badge Fixes

- **Badge notifications:** Now properly queue and display in sequence (500ms delay between each)
- **Badge unlock detection:** Fixed race condition where badges wouldn't unlock on first try
- **Profile stats:** Correctly increment across all modes (Classic, Emoji, Music, etc.)
- **Streak calculation:** Fixed issue where streak would reset incorrectly on same-day replays
- **Event date detection:** Now handles time zones and DST properly for event badges

Visual Fixes

- **Badge tooltips:** Auto-adjust position to stay within modal boundaries
 - **Profile wallpaper:** Now properly scales on all screen sizes
 - **Badge grid:** Fixed alignment issues on mobile devices
 - **Notification animations:** Smoother entry/exit with proper timing
-

Badge System Architecture

BADGE SYSTEM FLOW

1. User Action (Win game, reach milestone, enter code)
 2. `updateProfileStats()` tracks the action
 3. `checkAndUnlockBadges()` evaluates all badge conditions
 4. Badge unlocked → `profile.badges.push(badgeId)`
 5. Notification queued → `profile.pendingBadgeNotifications.push(badgeId)`
 6. `saveProfile()` → `localStorage` update
 7. On next page load → `checkPendingBadgeNotifications()`
 8. `showBadgeNotification()` → User sees popup
 9. User clicks notification → `showBadgeZoom()` modal with details
-

Key Functions

badgesData.js: - `badgesList` - Array of all badge definitions - `eventCodes` - Dictionary of valid event codes - `isEventCodeValid(code)` - Validates event code timing - `getBadgeById(id)` - Retrieves badge by ID

badgesManager.js: - `initBadgesSystem(profile, saveProfile)` - Initializes entire badge system - `checkAndUnlockBadges(profile, saveProfile)` - Evaluates all conditions - `checkEventBadges(profile, saveProfile)` - Auto-unlocks date-based events - `showBadgeNotification(badge)` - Displays unlock notification - `toggleBadgeSelection(profile, saveProfile, badgeId)` - Manages user selection - `handleEventCodeSubmit()` - Processes code redemption

profileStats.js: - updateProfileStats({ result, mode, timeSpent, attempts }) - Tracks all gameplay - getDefaultProfile() - Creates initial profile structure - getDefaultModeStats() - Initializes mode-specific stats

  }
}

```

Browser Compatibility

Browser	Minimum Version	Status	Notes
Chrome	90+	Fully supported	Best performance
Firefox	88+	Fully supported	WebP supported
Safari	14+	Fully supported	iOS 14+ compatible
Edge	90+	Fully supported	Chromium-based
Opera	76+	Fully supported	Chromium-based

Requirements: - JavaScript enabled - LocalStorage enabled (for saving progress) - Minimum 1280x720 resolution recommended - Internet connection (for CDN assets)

Design Philosophy

Visual Identity

The badge system follows Persona's iconic design language:

- **Color Palette:** Red, black, and white (Persona 5 inspired)
- **Typography:** Bold, modern fonts matching the game's UI
- **Iconography:** Clean, recognizable symbols
- **Animations:** Smooth, punchy transitions reminiscent of All-Out Attacks

User Experience Principles

1. **Clarity:** Every badge's unlock condition is transparent
 2. **Celebration:** Unlocking a badge feels rewarding
 3. **Progression:** Clear path from beginner to completionist
 4. **Discovery:** Secret badges encourage exploration
 5. **Social:** Sharing profile creates community engagement
-

Statistics & Metrics

Development Timeline

- **Planning & Design:** 2 weeks
- **Badge System Implementation:** 3 weeks
- **Profile Sharing Feature:** 1.5 weeks
- **Performance Optimization:** 1 week
- **Bug Fixing & Testing:** 2 weeks
- **Total Development Time:** ~9.5 weeks

Code Stats

- **Lines of Code Added:** ~3,500
- **New Files Created:** 15
- **Modified Files:** 28
- **Bugs Fixed:** 37
- **New Features:** 2 major, 8 minor

Badge Distribution

Category	Count	Percentage
Achievement	7	37%
Event	6	32%
Secret	5	26%
Social	1	5%
Total	19	100%

Future Roadmap

Planned Features (Next Update)

Quality of Life: - Leaderboards for competitive players - Friend system for comparing stats - Achievement progress bars

Long-term Vision

- **Mobile App:** Native iOS/Android versions
 - **Multiplayer:** Competitive head-to-head matches
 - **Daily Challenges:** Special themed puzzles
 - **Custom Badges:** Create and share community badges
-

Credits & Acknowledgments

Development Team

Lead Developer & Designer: - Hamza - System architecture - L2GENDAIRE - Data & Design

Contributors: - Community beta testers for invaluable feedback - Discord members for bug reports and suggestions

Special Thanks

Content Creators: - **Arati** - Community support and content creation (Badge: Arati's Blessing) - All Persona streamers who featured PersonaDLE

Community: - Discord members for constant feedback - Reddit r/PERSoNA community for suggestions - Players who shared their profiles and stats

Assets & Resources

Game Assets: - Character portraits: © Atlus / SEGA - Music tracks: © Atlus / SEGA (Shoji Meguro & composers) - All Persona intellectual property: © Atlus / SEGA

Development Tools: - Visual Studio Code - Git / GitHub - Chrome DevTools - Figma (for badge design mockups)

Libraries & Frameworks: - Vanilla JavaScript (no frameworks - pure performance!) - LocalStorage API - Canvas API (for profile image generation) - CSS3 animations

Legal Notice

PersonaDLE is a **fan-made project** created out of love for the Persona series. It is **not affiliated with, endorsed by, or connected to Atlus or SEGA** in any official capacity.

All Persona characters, music, and game elements are the intellectual property of their respective copyright holders. This project is **non-commercial** and **non-profit**.

If you enjoy PersonaDLE, please **support the official Persona games** by purchasing them from Atlus/SEGA.

Contact & Support

Get in Touch

Official Channels: - Website: [<https://personadle.net/>] - Discord: [<https://discord.gg/wpMdGGDp3y>]

Report Issues

Found a bug? Have a suggestion?

- **GitHub Issues:** [<https://github.com/HamzaKarrouchi/personadle>]
- **Discord:** Use the #bug-reports or #suggestions channels

Community Guidelines

When interacting with the PersonaDLE community: - Be respectful and kind
- Help newcomers - Share your achievements and strategies - Report bugs constructively - Have fun and enjoy the game!

Thank You!

Thank you for being part of the **PersonaDLE community**! This update represents months of passionate work to create the ultimate Persona-themed daily game experience.

Whether you're a casual player or a completionist hunting for all 19 badges, we hope this update brings you joy and keeps you coming back every day.

What's Next?

- **Stay Updated:** Follow our social media for event code announcements
- **Join Discord:** Connect with other players and share strategies
- **Share Your Profile:** Show off your badges and stats!
- **Give Feedback:** Your input shapes future updates

Final Words

The Persona series is about **bonds, growth, and facing your true self**. PersonaDLE aims to capture that spirit through daily challenges and community achievements.

Thank you for playing, sharing, and being part of this journey.

The truth will be unveiled, one guess at a time.

— **The PersonaDLE Team**

“I am thou, thou art I... And together, we'll reach the truth.”

Version History

Version 1.0 - December 2025 - Badge System (19 badges) - Profile Sharing with wallpapers - New characters (Fuuka, Erina, Toshiro) - Performance optimizations - Major bug fixes - All-Out Attack mode improvements - Dark mode enhancements - New profile avatars

Last updated: December 2025 PersonaDLE is not affiliated with Atlus or SEGA.
